### Ministers Fill Vacancies On Committees

Rev. J. C. Wygant, newly elected president of the Warren County Ministerial Association, was in charge of the regular meeting held Tuesday morning at the YMCA with 19 members in attend- ance.

The chairman appointed Rev. Wayne Furman to serve on the committee of Christian education and Rev. Harry Johnson to be the law and order committee, to fill the unexpired terms of Dr. J. A. Davidson.

The secretary was instructed to write a letter to Major Walter Daniels, whose pleasant relations with the association were severed suddenly and unexpectedly on account of illness.

Plans for the annual Memorial Day services were left in the hands of the committee, which includes Rev. O. C. Minglehoff, Rev. Harold Knappenberger, Rev. Bertil Edquist and Rev. Martin Hamlin.

Mr. Wygant announced appoint- ment of the following committee to study the possibilities of hold- ing union Sunday evening services during the months of July and August: Rev. Furman, Rev. E. P. Wroth and Dr. H. A. Rindard.

Rev. Dwight Jack, of Youngs- ville, reviewed the book "Plan- ning a Year's Pulpit Work" by Dr. Andrew W. Blackwood, pro- fessor of homiletics at the Prince- ton Theological Seminary, and closed the meeting with prayer.

"GUILLotine" WORM  
The palolo, a marine worm, is said to sever its head from its body when full of eggs. The body floats to the top of the sea, bursts, and scatters the eggs about. The head then grows another body.

## R. Pierson Eaton Gives Paper Before Local Social Scientists

When the Social Science Section, Warren Academy of Sciences, resumes its monthly meetings in November, its chairman will be Earl H. Beshlin, lectured to that effect at the annual meeting of the group and only remaining active member who was a charter member.

Others elected were secretary-treasurer, James E. Springer, re-named, and third member of the executive committee, Franklin R. Hoff. R. Pierson Eaton is the retiring chairman and Dr. J. A. Davidson was the executive member.

"Manpower and War", the chairman's address by Mr. Eaton, provided timely in the light of current headlines. He analyzed the interlocking problems of selective service and manpower, with full comprehension of the social, economic and political factors involved.

The paper included a review of the history of military conscription in both England and the United States, the dispatch and realistic handling of total mobilization of all persons and all property for prosecuting the war in England being described in striking contrast to dilatory inaction and half-measures undertaken by the United States authorities respecting manpower.

Mr. Eaton emphasized the inevitable and rapid regimentation of our entire United States population in the ensuing months on a scale yet undreamed of by the vast majority of Americans, involving the raising of a ten-million-man army on one hand and the stepping up of industry and agriculture on the other. The address precipitated a lively forum on the willingness of rank and file Americans to accept regulations which must be instituted to win the war.

Deep regret was expressed over the passing of Hon. Edward S. Lindsey, one of the founders of the section in September, 1895, who remained its mentor and guiding hand until his death.

Hosts for the May meeting were Dr. Davidson, M. H. Deardorff, Charles H. Eaton, Fred C. Eaton and Herbert G. Eaton.

## Police Find Aged Woman On East Side

Police yesterday afternoon had a call from an East Side merchant saying there was an elderly woman at his store who appeared confused and lost. Officers made a trip to the store with the cruiser car. The woman appeared to be dazed and it was thought that she lived near Glade from her remarks. She was taken there and an endeavor made to find her home but without avail.

The woman kept saying "I don't remember but maybe I can write it down", but given paper and pencil she could not write in a readable manner.

Finally Officer Eckhart called the Jamestown police and it was discovered the woman was from Jamestown and police there had been searching for her. Her name was given as Mary Michaels, 71, and she was taken to her home in Jamestown last evening.

Otherwise the police had a quiet night with only the customary family fights to adjudicate, small boys to chase to bed and other and sundry duties that are neither exciting nor newsworthy.

## Memorial Day Plans Made By Committee

Warren's annual observance of Memorial Day was tentatively discussed last night by representatives of three veterans organizations at a meeting held in the V. F. W. rooms. Detailed plans will be made public following the next meeting of the committee which will be held at the Legion Home on April 12th.

The committee did decide, at last night's meeting, that the American Legion would have charge of the Memorial Day Parade and that members of the V. F. W., assisted by the Spanish War Veterans, would have charge of the exercises at the speaker's stand in Oakland Cemetery and at the G. A. R. Circle. It was also agreed to hold a non-sectarian service on the lawn of the American Legion Home on the Sunday preceding the Memorial Day exercises.

Ben Kinnear was elected chairman of the joint committee, Leo L. Weidert, vice chairman, K. W. Davis, secretary and M. G. Keller, treasurer. Others present from the V. F. W. were: W. H. Fitch, Ralph G. Akers, Robert J. Pring, Edward Mason and Charles G. Pearson. From the Spanish War Veterans: Charles Rohlin, Thomas Jaynes and Hugh Olson and from the American Legion, John Meade and D. E. McComas.

### FORMS AVAILABLE

The local war rationing board states today that it has available for use of farmers and butchers Form 1609 on which they must list slaughtering of cattle or other meat animals; also sale or transfer of meats and other rationed products. These may be had by calling at the office or writing there. Retailers who handle meats, fish, fats and cheese are now being registered, with a partial supply of forms on hand and more expected in a few days. These registration dates are set for May 3 to 14th.

### SECOND HAND CONTAINERS

To meet the increased demand for fruit and vegetable containers stimulated by military and lend-lease shipments, the Food Distribution Administration is launching a campaign to increase the salvage of second hand containers in the Northeast Region, according to William M. Walsh, Area Supervisor of FDA. At the present time, the production of lumber for containers is running about 25% short of the demand. Shortages of labor and machinery have been a predominating factor. With total lumber inventories for 1943 hardly 50% of normal, major shifts from new to second hand containers must be made for handling this year's crop of fruits and vegetables, said Mr. Walsh, adding that the situation is becoming critical.

### CALL IT "MOM'S" DAY

Ruth Millett, who conducts a column "We The Women" for NEA Service and the Times-Mirror, offers the following timely suggestion which will doubtless find ready approval by readers generally:

This year maybe we ought to call it Mom's Day.

That is the teasing, affectionate title the majority of the boys in service seem to use, judging from all the "Dear Mom" letters that have been published in newspapers since the war's beginning.

But whatever the day is called, the mothers of the boys in service are the ones we should especially honor this year.

They are the ones who are having a difficult time. Their "kids" are men in uniform—far from home, facing danger, hardship and loneliness. And there is nothing "Mom" can do for them—but pray and hope and write letters and bake cookies and keep the rest of the family as happy as possible.

Let's offer a special prayer for those "Moms" this Mother's Day. And through the rest of the year, let's be especially considerate of them.

Let's not only allow, but encourage, them to talk about their sons—to brag how well they are doing, to show us their pictures in uniform so that we can say, "My, but you must be proud of him."

They need to have others listen, sympathize, and admire—those Moms who are going through the hardest time of their lives.

Let's remember when we bump into them on the street to ask with interest and concern, "Have you heard from Bill lately?"

Let's not be critical of their reaction to war's strain and their sacrifice.

Some people don't stand up as well under worry and fear as other people. We shouldn't expect them all to react alike, to show the same high courage, to put on the same brave front.

Let's remember all that—long after Mother's Day has passed.

### PLANNING VACATIONS

The time has come to begin planning your vacation. All government war agencies are agreed that production will be benefited if you will take a few days off to rest, relax and refresh yourself mentally and physically. But traditional vacations are out, because neither transportation nor resort facilities are capable of handling them. So both for your own sake and that of the country, you should start early to find out what, that is possible, will do you the most good.

Touring vacations obviously are impossible. You will be sorry if you think you can go to some distant resort by train or plane, without suffering more than the change will compensate for. You can't even figure on staying home and driving to shore, golf links and picnic grounds every day.

One good tip is to avoid the most popular vacation periods, to try to find some resort within 50 miles of home, and then to settle down there and really rest.

### MRS. MANVILLE NUMBERS 5 AND 7

Probably we should be grateful to Tommy Manville for breaking back into the news. The asbestos he reminds us that life goes on just the same, war or no war.

Tommy, say news reports, plans to make Bonnie Edwards, who was Mrs. Manville No. 5, his bride No. 7. The romance lasted 22 days the first time—five of courtship and 17 of married life—before Bonnie left Tommy en route to Reno.

There's always something for comic relief.

### THIS IS YOUR CUE

One \$18.75 war bond will pay for a fur-lined flying jacket for a Navy flyer, risking death in an open plane without heating equipment five or six miles above the earth.

One \$75 war bond will pay for a .30 caliber semi-automatic rifle for a Marine who is going to help establish a bridgehead in the Japanese archipelago some day this year or next.

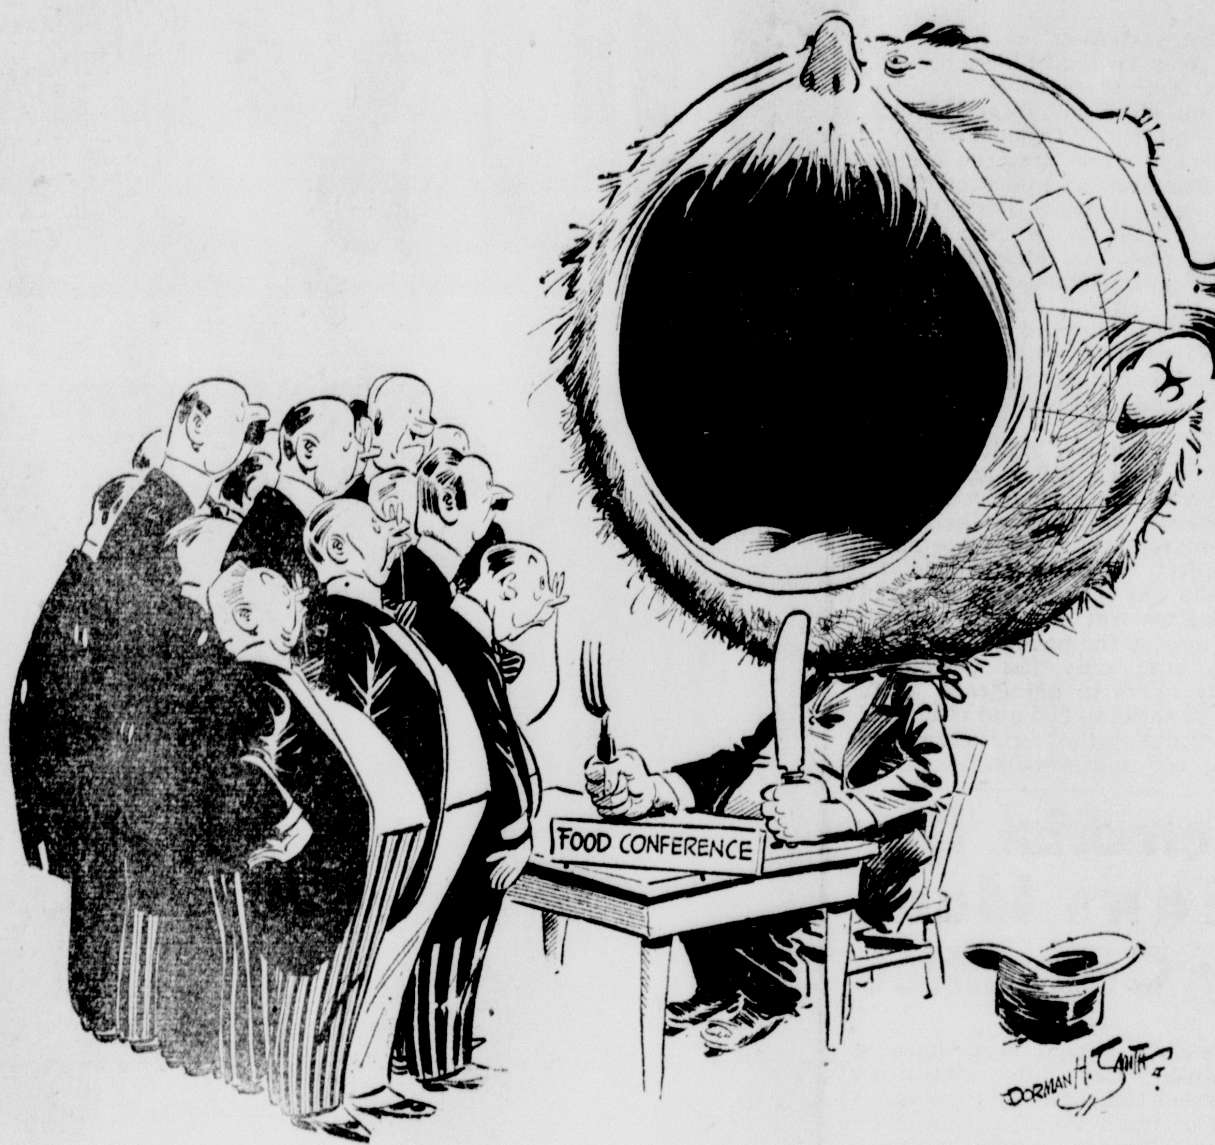

Four \$75 bonds will buy a balsa wood life float capable of sustaining 60 men whose ship has been sunk by the Nazis or the Japs.

What do you need so much as our fighting men need these things?

Fine gesture on the part of the Elk lodge in offering a reward for the recovery of the body of Richard Kline.

'Bout time to get out the old lawn mower!

## "This, Gentlemen, Is What We Must Look Into"

## Washington in Wartime

(Second of two articles in the growing importance of air power)

By JACK STINNETT

WASHINGTON—It's no secret now that the global war in the air is shaping up into a definite pattern. Here are some main points:

(1) Regardless of the length of time it takes to mop up Tunisia, the United Nations now are waging an air blitz from THREE fronts and those three fronts form a triangle which have the Axis completely encircled. (From Rostock and Danzig on the north to Taranto, Sicily, Sardinia, Marseille and Bordeaux, on the south, there isn't a square foot of Nazi-occupied soil that isn't now within easy range of United Nations bombers.)

(2) That one-time scourge, the Luftwaffe, is badly crippled and the Nazi high command can no longer consider it any more than a defensive weapon. As such, its power must not be underestimated. It still can deal staggering blows and probably will get in a few, but not enough to check the R.A.F. and the United States and Russian air forces.

(3) Events of the last few months have finally awakened the drowsy U. S. Army and Navy high commands to the vital importance of airpower as an offensive weapon. There still are some bottlenecks—some ground generals and admirals who think that the war in the Pacific must be won island by island and the war in Europe foot by foot. There are a few who won't admit that in a sense, they're right. But with airpower knocking out the war plants and supply lines, some of those continental miles can be taken with seven-league boots.

(4) The answer to the pleas of our Pacific allies and commander for more air strength in that theater isn't now going to be long delayed. The Axis in Europe is still No. 1 on our list, but by the brutal execution of those captured American flyers of the Doolittle raid on Tokyo and by massing air strength in the South Pacific outposts, Japan has brought about what no pleas heretofore had availed—the promise of Washington to do something immediately.

(5) Probably most important of all, the winter and spring of 1943 likely will go down in military history as the period when airpower, in so far as the U. S. military is concerned, at least, came into its own.

DON'T get the idea that any of the foregoing implies an early end to this war. Nor does it mean that the use of airpower will disappear from the theater of controversy.

Extremists among the airpower advocates undoubtedly will continue to shout that total victory can be obtained by planes alone. The more cautious will point to the Luftwaffe's failure to knock Britain out of the war or even to soften it up to a point where invasion was certain of success. Extremists on the ground side will continue to insist that airpower is nothing but long range artillery mounted on wings and only important in aiding men on land and ships at sea.

Probably what is happening is a distillation of all these opinions into the really effective use of airpower as a striking weapon, but that's practically in the stratosphere compared to where we were a couple of years ago.

## Hollywood Gossip

By ROBBIN COONS

HOLLYWOOD—That fantastic magazine called *Lion's* Roar has made another of its semi-occasional appearances, and just when I thought I was getting used to this slickest of slicks, it comes up with an edition that sends me reeling back into my wheel chair.

After breaking open the box in which this snob of the magazine world is shipped, I am confronted with a neatly printed seal which advises that the issue sets a new record for size, which certainly is no exaggeration, and sets, also, "a new record for big news."

Deeply indebted to Metro-Goldwyn-Mayer for being on their free list for this shining publication, I will not quarrel with that. Be advised that *Lion's* Roar is sort of a twin of that other class magazine, *Fortune*. The cover design is quite similar, except that where *Fortune* usually goes for heroic locomotives or ships, *Lion's* Roar this month favors us with a lovely pink and gold cherubine who manages to be two-thirds expensively although she is wearing a costume that sweeps the floor and a bonnet that sweeps the ceiling.

THE M-G-M publication also resembles *Fortune* in size and stapling, but right there all similarity stops. The *Roar* does not bother to count or number pages, or list its editors, or set forth an editorial policy. The kind of material you would take to be advertising, and the kind you would take for news, seem to be combined in a breathless, ecstatic form of writing and display that the *Roar* undoubtedly would like to see more of. I mean, the magazine probably would be a very fine model, from a Hollywood standpoint, for hard-nosed newspapermen to follow in telling the expectant public all about the wonderful surprises their neighborhood movie house has in store for them.

I NEVER could figure out what the *Roar's* purpose is. They tell me that it is to give exhibitors and editors ideas. In connection with which it seems worthy of note that the current issue has a two-page-unfold of a Varga girl in pink and white, with the discreet credit reading: "Du Barry was a Lady. The Technicolor Metro-Goldwyn-Mayer Musical Comedy, yields this impression of the Du Barry Girl from famed artist Varga of Esquire Magazine." (The caps are the editor's, whoever he is, not mine.)

That attended to, there are some bylined articles by Lucille Ball, Clarence Brown, Mickey Rooney, and a couple of others. Also some spreads on "The Human Comedy" and some other recent M-G-M epics. They make me excited all over again about my job.

Well, maybe they'll take me off their free list now, but I had to get this out of my system. It's a great little magazine, every pound of it.

## You May Never Have To Take Another Laxative

Most constipated people might be as regular as clock-work — if they would only quit worrying — stop being nervous — take more exercise — watch their diet — and get up mornings an hour or so earlier to give bowels time to set. But who can or wants to do all this?

So — the next best thing is to keep the bowels working as regularly and comfortably as we can — and that's where good old *Ex-Lax* comes in. Why? Because you may take *Ex-Lax* at night and expect results in the morning when you get up without waiting around — because they do not move the bowels so violently as to leave you feeling weak and wasted-out. . . . AND because they help give the grand, comfortable, satisfying type of movement that makes the spirits soar — and what your constipated person could ask for more! Get *Ex-Lax* at your druggist today and take as directed. 25c.

## GUSS WHERE CASEY'S LEGS HEALING

By BILL KING  
Boston, May 5—(AP)—Now that he is starting his third week in hospital bed, Casey Stengel, the Boston Braves' broken-legged manager, appears to have convinced his doctors and nurses that he is a contented patient. Previously, a feared force might be needed to detain him.

"I guess I'll stay here as long as they want me," Stengel told his visitors, coaches George Kelley and Bob Coleman, who have been running the club since the year-old manager was felled by an automobile on the eve of the National League's opening day. What makes Stengel's stay in hospital bed endurable is the fact that his team, now resting comfortably in the first division with five wins and three losses, is out-hit every opponent in every game by an 81-61 margin. Never before, since he took over the Braves five seasons back, has Stengel had such consistent hitting from the top to the bottom of the batting order.

"And I guess they'll be wanting me here for some time," Stengel continued. "The doctors say my leg is doing fine and the x-rays reveal it is improving every day. I've been led to believe that, of these days, they'll even set for me."

Due to crowded conditions, Stengel is hospitalized in one of the rooms in St. Elizabeth's maternity section, quarters which include hundreds of hilarious telegrams from his sharp-witted baseball colleagues.

"Being an invalid is not such a bad life as long as the club keeps hitting and winning," Casey confessed. "I do wish they'd rig up a telephone to the Braves bench or get me an amplifier so I could yell those base-runners across the plate. But you can't make any noise in maternity wards."

## Two Teams Kegling For Title Tonight

Murderer's Row again takes up its squawking antics on the Elks Club slides tonight, when the Texas Lunch and Style Shop go into their final four games for the club championship, and should be made up of some of the loudest lungers ever seen.

It has long been a tradition for the defeated teams' bowlers to line up the sides of the alleys and cut loose every ounce of lung power for one team or the other, which eventually drives some of the old-timers into nervous prostration and gives the rookies the shaking virus, all of which adds up to success from the "row's" point of view.

The matches can still go one more night in the event that the Clothiers win two of the three, while the "hot dogs" only have to shake off two for the title and the betters have it that tonight is the finale, one way or the other.

At any rate, it's the biggest night of the year for the local club's defeated plus nearly everyone else capable of getting there and one that usually winds up with the teams best able to endure the "row", walking off with the gon-falon.

## PENN CENTER PREPARES FOR BIG EVENTS

The Penn Bowling Center, continuing its policy of "Bowling at its Best" has announced a proposed event for every team in the city that should draw one of the biggest entries ever seen in a local establishment.

Any team with this year's league averages to show is qualified to enter and a prize list drawn up and sponsored by merchants of the town will be the booty for the winners. Handicaps will be given every player for each game rolled.

Several teams have already signed up and plans are rapidly being completed for schedules with action slated to start next Wednesday and Thursday.

Doubles will start the events rolling with a follow-up of singles with the Elks Clubbers and Moose taking their places on opening night followed by K. of C. Keglers and any other outfits ready for stiff competition in an event that really tops off the season's bowling.

## Bowling

AT PENN CENTER  
Bab's Barbers, with the league cinched, took four points from Kimmars as Dick Check's series of 620 on games of 204-210-206, netted them their wins as Shield's 562 helped them also. Fielding's 598 led the losers. Joe also had a 225 game.

Paramount Furniture, with Jim Thomas' 561 to lead the team to a three point win over the Crossett.

Heat Treat topped the Times-Mirror for three points as Suppa's 226-561 led them and Bleach's 231-559 the publishers.

Honor Roll: Suppa 226, Randinelli 210, Bleach 231, Yarbek 212, Graham 232, Flohr 204, Shield 200, Check 210, Fielding 225.

## AT CONEWANGO CLUB

Culbertsons clinched the Conewango Club Championship last night by winning a hard fought battle with the Ericksons which started out with Ericksons clipping the first chapter by a sizeable margin and then dropping off under the assault of the high-riding Culbertsons. Don Conaway was the big gun for the winners last night turning in games of 153, 156 and 225, and was helped by "Fritz" Kiesauer with his 495, which doesn't stack up very far usually, but last night was one of the nights that "500" count was a winner. Bob Ritchie at 538 paced the losers and was helped to end the game by a sizeable margin and then dropping off under the assault of the high-riding Culbertsons. Keystone Printers capped three points from the Millies Inn crew last night on the groove-pitching of M. Reese who stuck the oval in there for 521 while the Hendersons were taking one from the Adams Market on a smashing 224-556 set by Cliff Christensen and walked away with high total for the night at 2478 and high single of 920.

## AT THE ARCADE

Jo Cardamone and Ann Lucia paced the Read's Studio over the Junior City all-stars last night on the Arcade slides, with 184 apiece. The men-beaters had quite a bit of trouble with "Sport" Stanton when he trailed in with a 211 game and "Bud" Mesler placed 178, but they worked hard and came into their own with a "never live it down" win. Angie Scalise had high total for the girls at 486 while "Junior" Lawson blasted 516 for the losers.

Look up... they need your help!

YOU see American fliers training and patrolling up there every day. You read anxiously the news of the thousands more who fight in foreign skies the world around. There is something we at home can do to help these men. They fly on super high-octane gasoline. It gives them a vital edge in air combat. It adds

greatly to the speed and power of their engines. So far as we know, no enemy nation has been able to produce it in such quantities as we have. Right now the job is to get this fuel to these men in battle. To reach Europe or Africa quickly it must come from the Atlantic Seaboard—cutting shorter the scant supplies of petroleum products here.

Before you drive a needless mile... remember this—American boys are flying and fighting for you. Some of them are dying for you. Oil is their ammunition!... Use it wisely.

## Sports Roundup

By HUGH FULLERTON, JR.  
New York, May 5—(AP)—The new major league baseball, which will be distributed to the clubs in a few days, is about as lively as the one the Southern Association uses... and the Southern League always has insisted on plenty of guys with big batting averages to sell at the end of each season... Lou Coleman of Spalding's says that the production line will be rolling by today so that there's no danger of a shortage the rest of the season... Lou Smith is trying to round up 500 bicycles so that race fans can pedal to Rockingham Park from the Lawrence, Mass., station where all the trains stop... If he'd install a few mutuel windows at the station so the riders could bet on themselves, the idea might go over.

Confession  
When ex-featherweight champ Chalky Wright, who always thought training was getting aboard a train, turned up at the gym yesterday for the first time in seven weeks, Mike Beloise greeted him: "What are you doing here, Chalky? Are you sick?" "No," admitted Chalky gravely, "I'm just hungry."

Consoling Thought  
When Burnt Cork struggled home last in the Kentucky Derby, his owner, Rochester (who probably was the only person there watching the race) remarked: "He's sure tired, ain't he?"... and a friend offered this bit of consolation: "Don't you worry, Rochester. They've been more money lost here today on Burnt Cork than was won on Count Fleet."

Shorts and Shells  
Connecticut high schools have been invited to schedule football games with Yale team of equal weight and experience next fall... The boxing service and athletic fund now has distributed

The sixth day's time-and-a-half would provide more pay for miners now working only five.

But operator spokesmen insisted most of the mines already are on such a schedule, and others pointed out that even if that paved the way for peace, any permanent agreement reached involving wage increases would have to be submitted to the board for approval.

If the truce time ends without settlement, informed persons felt the miners might merely continue to work—with the fields operating under the American flag, and the workers looking for any subsequent deal to be retroactive to the date of their last contract's expiration.

### SENATORS TO GIVE MORE TIME TO BILL

Washington, May 5—(P)—An apparently strong senatorial inclination to take a longer look at legislation empowering the government to seize and operate mines or war plants affected by labor disturbances today pointed the Connally plant seizure bill back toward committee.

atmosphere seemed somewhat of a contrast to our own year-long endeavor. The ringing of telephones, the clicking of typewriters, the rumble of presses and the general hubbub seemed like a never-ending turmoil in comparison to our quiet "confusion" in the Dragon room. A striking simile occurred to us, however, while viewing the desks of the editorial staff of the Times. It's amazing, the apparent difficulty with which all editors contend to keep an orderly desk (with apologies to the Times-Mirror society editor).

However, it is truly an educational experience to visit the Times-Mirror, and we sincerely thank the Times staff for their hospitality and their trouble to make this an unforgettable experience for us.

It was incorrectly stated earlier that admission to the concert must be by tag, a misunderstanding arising from the plan to sell advance tags at the door. The concert, however, is free to all interested and the young people and their director, Harry A. Summers, are hoping for a full house on Friday night.

A complete list of patrons will be announced in these columns next Monday, following the "tag day" canvass on Saturday.

## Druggists Act To Halt Sales Of Castoria

Warren drug stores acted immediately today upon receiving orders to stop the sale and remove from their shelves all stocks of Fletcher's Castoria, well known children's medicine. Reports that shipments of the product made during March and April had been found to be causing severe cases of nausea where administered to infants brought action by the Centaur division of the Sterling Drug Company, the manufacturers, in co-operation with the government health agencies.

First public announcement of the order halting sales is said to have been issued by officials of the company Sunday night. Jamestown druggists and some in other cities of this area received the word yesterday while mailed notices of the order were received by Warren druggists today.

The manufacturers ordered that all sales be immediately halted and any stocks in the stores be returned at once. So far as could be learned this afternoon no serious illnesses had resulted from use of the product in this city. Only that stock which was shipped during the past two months from the factory is held responsible for the trouble.
